Developing & Manufacturing LED products in the USA since 1983

www.LEDtronics.com

Since 1983, LEDtronics, Inc., under founder and CEO Pervaiz Lodhie's vision and direction, has become recognized as a company whose LED lighting innovation, design and solution skills have placed it at the leading edge of the LED Green Revolution.

Today, LEDtronics has the advantage of being in existence designing and manufacturing LED products long before the emergence of a now rapidly growing product category – LED lighting. As well as being an unmatched leader in providing LED lighting solutions, LEDtronics' LED products are recognized for their efficiency, innovation and sustainability.

The company's customers range from small to mid-size companies, all the way to large, Fortune 500 companies like General Electric, Caterpillar, Siemens, Square D, Cisco Systems, and IBM. The Department of Defense and other U.S. Government Agencies seek out LEDtronics as well to find their respective LED lighting solutions.

LEDtronics now also manufactures Solar Panels – a clean, renewable energy power source that is ideal with LED clusters and bulbs.

LEDtronics continues to be a leading-edge innovator in the design and manufacturing of Green LED lighting products for the replacement of less efficient, shorter-life and higher-maintenance incandescent and fluorescent lighting products.

LEDtronics offers over 10,000 products in such product categories as:

- Architectural Design Lighting
- Healthcare Lighting
- Municipal Street Lighting
- Community and Business Area Lighting
- Retail Lighting
- Tube Lighting
- Strip/String/Path Lighting
- Miniature & Intermediate LED Based Bulbs

Note: White LED Technology is patent protected in the US. LEDtronics White LED products are covered under this patent.

LED T 8 Tube Lamps are patent protected in the US. LEDtronics is a licensed manufacturer under this patent.

All of LEDtronics' products are of the highest quality and performance.

We are an ISO 9001/2008 certified and RoHs facility compliant company. LEDtronics also meets all ARRA requirements for certifying that many of their products are "Made in America." LEDtronics is also an approved manufacturer to the Department of Defense and all other military branches.

LEDtronics' key, core strength is its unmatched innovation & customization capabilities, providing solutions for its customers by addressing their needs or objectives.
